$UNIK Token Sale Summary

The Multipurpose Self-Sovereign Identity (SSI) Platform without KYC

Unikname Platform runs with its own blockchain, Unikname Network, using the famous ARK.IO framework. Unikname Network provides **SSI*** services relying on **DID** and **NFTs** with an international naming system.
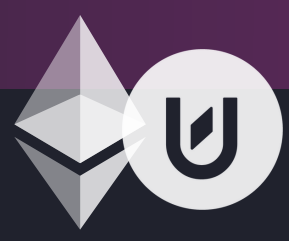

UNIK NAME NETWORK

Tokenomics

|	
777,777,777	Total $UNIK Supply*
$0.025	**$UNIK Token Offering Price**
$19,444 k	Market Cap with fully diluted supply
$2,000 k	Token sale hard Cap
$200 k	Funds used for Liquidity Bootstrapping
15.3%	Tokens sold vs total supply
8,600,000	Initial circulating $UNIK supply
$215 k	Initial Market Cap with circulating supply

NOTA: The protocol generates 1 $UNIK at every block (every 8 seconds) to compensate losses and to secure empty blocks. These tokens are distributed to the block forgers. This creation of supply represents less than 0,5% of inflation per year (~3,9M $UNIK every year).

Unikname launches a **Token Sale** and an **IDO** of its **$UNIK** utility token with the help of a launchpad. Upon successful completion of the offering, **Uniswap ETH/UNIK** pool will be created within 5 days and trading can start immediately on the **Uniswap DEx**.
